HOUSE OF MOTHER'S AGENDA

The Atoms?

Then, one day, this in-between suddenly found itself subjected to that irrepressible "rush" from above.

Words fail us in their accuracy, our whole vocabulary is inextricably tied down or associated to the laws and physical phenomena we know. It is clearly another Physical. That is what makes the whole initial difficulty of this old body when all its habitual physics escapes it, submerged and overrun by "that".

The first remarkable thing is the continuity of the Phenomenon. When the first shock of chaos is accepted and recognized by that wonderful cellular depth, the chaos continues — it is perpetual chaos — but certain lines or furrows of this implacable "rush" emerge, and the body notices that this dense flow is linked to the breathing movement: exactly as if another breathing used these old bronchial tubes as mechanical support. You breathe in and out, but instead of stopping at and limiting itself to the lungs, this breathing invades the entire body all at once; in a split second it descends to the tips of the feet, hits there as if below ground level, bounces back upward in another split second (when you "breathe out"), and over again, indefinitely, like the breathing movement: it descends and ascends, descends and ascends, like an endless drop hammer. It is TRIGGERED OFF.

The Phenomenon is triggered off, and you can no more stop it than you can stop breathing. Indefinitely it descends from above as from a formidable floodgate (for us, our oxygen is the unalterable floodgate). But it is another kind of oxygen, and that is where words fail us: it is fluid, but crushing in its density, like an air that would be solid, and as rapid and instantaneous as the motion of lightning. Sri Aurobindo said, "The Supramental is harder than diamond and yet more fluid than gas." It is ANOTHER PRINCIPLE OF LIFE. Perhaps (but comparisons are false, for they apply to different models of the same physical), perhaps like a fish emerging into the "open air". But this is a totally different "air", unknown to the earth or never directly breathed by the old species. And the body learns that it is Life itself, as if life had never taken place, only living Death. Unfortunately, the old living dead man that we are goes on having the same physical substance, and he does not at all know how to assimilate or bear "that". He does see that he does not die of it (!) but just barely: it is every second like a death to be overcome or gone through, because his whole system is against (except these wonderful cells). And in truth, you go through Death: that air goes through the walls that make up our death - how would the Fish breathe the open air while remaining a fish? Or how would the astronaut breathe without his spacesuit?! Our comparisons are always false because they always apply to a known physical milieu — while this is another "milieu", supreme and divine, which acts knowingly, not with the unconscious brutality of the mechanical phenomena we know. But the difficulty remains of this old physiological spacesuit that is used to breathing its old mortal air under its usual pressure. This "air" wants to uproot the whole death of our system — it might as well try to uproot our whole millennial substance... And it wants imperiously, pitilessly, so to speak — like Athena! "There I was to drive the man deeper into this pit of death", she said of poor Ajax. And "that" indeed drives to the very bottom of the pit, which is more like a dungeon, but in order to find our own Secret.

And then, we begin to touch a Mystery. Or perhaps an illusion, but a fierce Illusion.

For the current specimen, the Phenomenon was triggered more than a decade ago, and he has lived it day after day, hour after hour, second after second — without dying of it. But the most surprising, most mysterious fact is that this Energy ("an all-shattering energy", said the Vedic Rishis) has never ceased increasing in density... as if, as the specimen learned to bear it, it drove down into an increasingly implacable Resistance, or an increasingly essential Death, or an increasingly solid, fundamental Wall — there, under the feet and all around the body. Mother said, "A power capable of crushing an elephant." And you clearly feel that it could crush anything — God knows you feel it! It is a terrible, ceaseless miracle that can be born only through the cells' unalterable obstinacy or certitude, and their equally ceaseless search for the solution. For them, they are in the invariable all-possible of their very Sun.

Then how many times the old corporeal specimen watching, undergoing the thing day after day, says to himself, "But this can't be! There is an illusion somewhere." But an illusion like concrete, or rather like basalt. Only, the body feels very precious in it. What really is this "Matter"?... That Energy could blow up any kind of matter — if It does not do so, it is because It does not want to destroy its specimen along with his death! In 1971, at the age of ninety-three, Mother, panting more and more, more and more indomitable, said: "I am in search of Matter's plasticity..." The body, the cells are ceaselessly in search of the solution. But that Wall? And while the Brute and the disciples awaited her death, she also said: "There is the very clear vision of this plasticity so particular, this suppleness so extraordinary that if it were realized... once it's realized, it obviously means the abolition of the necessity of death."

(to be continued next week)

- Satprem, The Tragedy of the Earth - from Sophocles to Sri Aurobindo, The Victory Over Matter

The one, the best possible way [to "repay" the Divine Grace] is to allow it to work in you, never to oppose it, never to be ungrateful and turn against it - but to follow it always to the goal of Light and Peace and unity and Ananda.

~ Sri Aurobindo

Covid Updates

The Honorable Chief Minister of Tamil Nadu has announced in a 5th June press release (see <u>link</u>) the extension of lock down in Tamil Nadu until 14 June at 6 AM while allowing certain relaxations in parts of the State that include our district of Villupuram. Kottakarai - Then and Now

Saturday June 26th, 9 PM (India), 4:30 PM GMT 11:30 AM (EST-US), 8:30 AM (PST -US)

Bobby, Judith and Lisbeth have lived in Auroville for nearly 50 years. They all arrived in the early 1970s, and they raised their families and built their lives together in the Kottakarai Community. Recently they decided to make a conscious effort to meet up and do something special together at least three times a year. They are inviting you to join them on their latest adventure, as they go back and revisit their old haunts and see what has become of Kottakarai Community over the last 50 years.

They are calling this adventure "Kottakarai Then and Now" and it promises to show the depth, beauty, and challenges inherent to pursuing a dream. In this case, it's the dream of Auroville: to create a society built on the principles of human unity and Divine co-creation.

This event is for anyone curious to know what 50 years of daily life in Auroville looks like. There will be a video presentation to start, and then an informal question and answer session with the three friends.

This event is a benefit for Auroville's Central Fund, which provides for the community's basic needs, like education, shared infrastructure, healthcare, and food. Register by making a donation of any amount - you will then receive an email with the link to join the zoom event.
